Project Management Professional (PMP®) Certification

The Project Management Institute (PMI®) is project management's leading global professional association, and as such, it administers a globally accepted and recognized, rigorous, examination-based, professional certification program of the highest caliber. The PMI Certification Program maintains ISO 9001 certification in Quality Management Systems as evidence of its commitment to professional excellence.

PMP certification is the profession's most globally recognized and respected certification credential. The PMP designation following your name tells current and potential employers that you have a solid foundation of project management knowledge that can be readily applied in the workplace. Many corporations require that for individual advancement within the corporation or for employment, the individual have the PMP credential.

To be eligible for the PMP certification, you must first meet specific education and experience requirements and agree to adhere to a code of professional conduct. The final step in becoming a PMP is passing a multiple-choice examination designed to objectively assess and measure your project management knowledge. This paper based or computer-based examination is administered globally.

In addition, those who have been granted the PMP credential must demonstrate an ongoing professional commitment to the field of project management by satisfying PMI's Continuing Certification Requirements Program.

For further information about PMP Certification, please visit [the Official Certification Website of PMI®](http://www.pmi.org) .visit web site www.pmi.org

To be eligible for the course you must have been accepted by the PMI, to write the exam and to be accepted you must complete enrollment process online at the [Official Certification Website of PMI®](http://www.pmi.org) .visit www.pmi.org Advantage Systems will not be responsible for your examination eligibility.
